## SUMMARY

Full-Stack Developer with practical experience building responsive frontends and RESTful backends. Comfortable owning both client and server layers: frontend UI/UX (React, Next.js, AngularJS, Three.js) and backend services/APIs (Node.js, Python/Django). Experienced with API documentation using Swagger/OpenAPI, authentication flows (JWT / OAuth), and production deployments. Seeking a role where frontend and backend responsibilities are separate but collaborative.

## TECHNICAL SKILLS

### Frontend

- Languages / Markup: JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass/SCSS, JSON
- Frameworks / Libraries: React, Next.js, AngularJS (1.x), Redux Toolkit, Tailwind CSS
- 3D / Graphics: Three.js / WebGL (3D web design)
- UX / Tools: Figma, Accessibility (WCAG), responsive & mobile-first design

### Backend

- Languages / Frameworks: Python (Django), Node.js, Express.js
- API / Docs: RESTful APIs, Swagger / OpenAPI, JWT, NextAuth (OAuth)
- Databases: MongoDB, SQL
- Patterns: RBAC, server-side validation, authentication, input sanitization
- DevOps & Tools: Docker, Kubernetes, Vercel, CI/CD, Git/GitHub, Jira

## EXPERIENCE

### EpicMinds Pvt Ltd

July 2025 – September 2025

#### Frontend Developer Intern

- **Frontend:** Built responsive UI components and pages using React, Next.js and Tailwind CSS; improved performance and ensured cross-device responsiveness.
- **Collaboration:** Integrated with backend APIs, handled authentication flows, and participated in Agile sprints using GitHub.
- **Notable:** Contributed to UI features for *CWHR AI*, *EpicMinds Official Website*, and *Smart Go*.

## SELECTED PROJECTS

### Blog Platform — Admin-Approved Publishing Workflow (Full-Stack)

*Frontend:* Next.js, React, Tailwind CSS, Redux Toolkit.

*Backend:* Node.js / Express (APIs) — can be delivered as Django/DRF with Swagger docs.

Authoring interface for post creation; admin UI for approval workflow and notifications. Authenticated endpoints for posts and approvals; RBAC for admin vs author. API docs via Swagger/OpenAPI for clear API contracts.

### College Room Booking System (Full-Stack)

*Frontend:* Next.js, Tailwind CSS (mobile-first).

*Backend:* JWT-secured APIs; server-side booking validation (Node.js/Express or Django).

Implemented atomic checks to prevent double bookings; admin calendar view for approvals. API documented with Swagger/OpenAPI.

## EDUCATION

PES University  
Independent PU College

B.Tech, Computer Science & Engineering, 2025  
Pre-University, 2021
